"QUEEN OF THE WEST" WASHER!

Patented February 24, 1880.

TRUE PRINCIPLE OF WASHING BY MACHINERY ESTABLISHED AT LAST.

The following points of superiority possessed by the QUEEN OF THE WEST commend it to the public as being the best washing machine in the market:

1st. That it washes upon the true principle of rubbing the clothes.
2d. Its plan of construction is such that a small fabric or a heavy quilt can be washed equally as well.
3d. Clothes can be washed in boiling water.
4th. Colors can be washed in the clothes without the fading usually required by other methods.
5th. It saves the wear and tear of the clothes usually attends washing, on account of the corrugated roller in the upper washboard, the rubbing being done perfectly.
6th. It can be operated by a small child, whereby the housewife is relieved from the tiresome labor usually attendant upon washing.

We manufacture a Boiler and Sheet Iron Furnace attachment, which burns ordinary stove wood, by means of which water can be heated and transferred to the washer through a faucet, thereby rendering it unnecessary to carry the water from the boiler to the machine, and doing away with much heavy lifting. The Washer, Boiler, and Furnace are so constructed that they can be set in a room separate and apart from the cook room, thus avoiding the drainage that usually attends the cook room on washdays. The Washer can be used separately from the Furnace and Boiler if desired. We also have for sale a Folding Wringer, which can be used to great advantage with our washers. AGENTS WANTED.

NEW ALBANY. Was laid out as a village in 1813, and is the county seat of Floyd county, located on the Ohio river and L. N. A. & C. and J. M. & I. R. Rs., nearly opposite Louisville, 109 miles south of Indianapolis. It has railway connection with Louisville daily, thus giving it the advantage of railroad competition there, as well as the Jeffersonville railways. The city is incorporated, has a bonded indebtedness of $300,000, excellent water works, a good fire department, is well lighted by gas, and has a population of 17,500. Its public buildings and private residences are both substantial and handsome, has churches of nearly all denominations, excellent graded schools, the DePauw College for ladies, a public library and an opera house. The press is represented by the *Ledger-Standard* (daily and weekly), the *Herald* (weekly), and the *Echo* and *Germania* (semi-monthly); the last mentioned is an old-established, influential German sheet. New Albany supports five banks—two private and four national—and eight hotels. Owing to its excellent transportation and excellent location, this city is an extensive manufacturing place. Prominent among its manufactured articles are furniture, lumber, steam boilers, pottery, handles, flour, leather, iron fence, rolled plate glass, railroad iron, ships, boots and shoes, brass, beer, car axles, coffins, oil stone, pumps and engines. The Adams, American and U. S. N. A. & C. Ry. Express Companies have offices here. Mr. M. M. Harley is postmaster.

NOTRE DAME. Located two miles east of South Bend, on the Michigan Southern railroad, in St. Joseph county, has no village population, but is celebrated as the best Roman Catholic educational institution in the west, namely, the University of Notre Dame, for males, and the St. Mary's Academy for females. With Classical, Scientific, Commercial, Preparatory, Law, Medical, Music, Art, Languages, Phonography, Telegraphy, etc., and a Normal department, which becomes necessary to [illegible]

sketch. *The University of Notre Dame* was founded in 1842, by the congregation of the Holy Cross, under the direction of the Very Rev. E. Sorin, and was chartered by the legislature of the state of Indiana in 1844, with full power to confer all usual degrees, and is now conducted by its President, Very Rev. William Corby, C. S. C. On April 23d, 1879, the University was destroyed by fire. The style of the present building (which was erected in the same year that it was burned) is Modern Gothic, and presents a frontage of 247 feet and a depth of 155, with a projection or wing on each side directly connected with the main building, makes a total frontage of 320. The height of main building from the ground to the pedestal of statue above the dome is 176 feet. Its facilities for education are largely stated, being calculated to form both the heart and intellect of its students. *The St. Mary Academy*, under direction of the Sisters of the Holy Cross, is the best disciplined and most thorough institution of its class in the United States. The building, of brick with stone dressings, is spacious and commodious, and one of the best constructed for educational purposes in the county. Situated on the St. Joseph river and surrounded by eighty acres of land without more pleasure grounds, make it a most pleasant and inviting. The popularity of the institution is shown by its patronage, as its list of pupils includes females from nearly every state in the Union. The proximity of Notre Dame and St. Mary's is a great convenience to parents having children at both institutions, as a visit to both can be made at the same time. The University has a Western Union Telegraph and American Express office in the building. Mail is received daily. E. Sorin, postmaster.

PATOKA, Gibson county, pleasantly situated on the E. & T. H. R. R. and the river from which it derives its name, is a busy, manufacturing town of one thousand inhabitants, 3 miles north of Princeton, the county seat, 21 south of Vincennes and 31 south of Evansville. Patoka is a flourishing shipping village in the bottoms. The location is especially favorable to extensive manufacturing, as the natural facilities are good, the modern bible supply of oak, poplar, hickory and beech timber, the stone quarries and numerous layers of coal and potters' clay, all easy of access, are some of the most prominent inducements to safe and profitable investment. Its present manufacturing consist of three saw mills, three flour mills and a distillery, with a capacity of 500 bushels of corn daily, but the production exceeds this demand, and in short the production overreaches the local demand probably 75,000 bushels annually. Patoka river furnishes good water power and is now being made navigable for 150 miles east by a slackwater navigation company, with capital stock of $50,000, which is proving successful. Its educational and religious advantages consist of an excellent graded school and three churches—Presbyterian, Methodist and Baptist. Adams Express. Western Union Telegraph Co. Daily mail. Samuel A. PERU. The capital of Miami county, is a city of 9501 inhabitants, located in the central portion of the county, on the Wabash river. It is distant from Indianapolis 75 miles, from Chicago 143 miles, at the crossing of I. P. & C. and W. St. L. & P. Rys. It is situated in a good agricultural district. The city is lighted by gas and has excellent water works, having 11½ miles of main and over one hundred plugs; cost of same, $125,000. Peru is an active and enterprising manufacturing place, having car branches and machine shops, saw, planing and stave factory, three flour mills, two paper mills, woolen mill, two planing mills, cut nail factory, foundry and boiler works. Notwithstanding the above is the establishment of T. P. Lovett, who is extensively engaged in the manufacture of pumps, both for house, farm and mine, the planing mill interests, the Locks, six in number, are up to the usual standard. The business still in the hands of the excellent gentlemen mentioned above. The city has two school houses, and among its churches are found the following denominations: Baptist, Lutheran, Methodist, Catholic, Presbyterian and Episcopal. Its educational and literary interests are unsurpassed by any city of its size in the state. Three newspapers are published at this point, and [illegible] Democrat, and [illegible] Republican. The Express Companies are [illegible] Western Union. Ira Myers, postmaster.

PETERSBURG. The county seat of Pike county, located on the old Wabash & Erie canal and near White river, is surrounded by a slightly undulating country, which is remarkable for its fertility. The village contains 1,500 inhabitants, and is distant from Indianapolis 125 miles, Washington, on the O. & M. Ry, 12 miles, and Oakland City, on the L. N. A. & St. L. Ry, 13 miles, the two last named are its shipping depots. Petersburg has good public buildings, including the county buildings, four church edifices and a graded school structure erected at a cost of $18,000. It supports three hotels, two weekly newspapers —the *Pike County Democrat* and the *Press*— and three flour mills. Grain, lumber and coal form the principal exports. Mail received daily by stage from Vincennes. Miss Mary M. Gleaon, postmaster.

RICHLAND CITY. Spencer county. (*See Lake.*)

RICHMOND. With a population of 18,000, is one of the most healthy cities in the state, and the seat of justice for Wayne county. The city was incorporated in 1818, and has steadily grown in size and commercial importance until now it is one of the most extensive manufacturing places in the state, and is the centre of trade for a large area. It is situated on White river, and is the northern terminus of the Cincinnati, Richmond and Chicago; southern terminus of Grand Rapids and Indiana, and the eastern terminus of the Dayton and Western Railroads, and is the junction of the Columbus and Pittsburgh, and Richmond and State Line Divisions of the Pittsburgh, Cincinnati and St. Louis Railroads, affording direct connection with, and being distant from Cincinnati, 70; Indianapolis 69, Dayton, O., 41, Columbus, O., 120, Ft. Wayne, 92 and Chicago 224 miles, having a commodious and well arranged Union passenger depot. It is also connected with the surrounding towns and villages for many miles by thirteen excellent turnpikes, making it the centre of a large local farmers' trade, and the shipping point for the large amount of farm products produced from the unusually fertile land by which it is surrounded. Its public buildings are principally of brick, and of a very substantial character, the growth of the city being shown by the fact that 148 building permits were issued in 1879. The county buildings are substantial, residences handsome, streets wide, well lighted by gas, and traversed by 3½ miles of street railway. The paid fire department is the peer of any in the land, consisting of two steamers with hose carriages, hook and ladder trucks equipped with all modern improvements, and fire alarm telegraph.

MANUFACTURING.

There are in Richmond 160 manufacturing establishments, in which an aggregate capital of $3,500,000 is invested, employing 2200 persons, among whom $1,000,000 is distributed annually as wages. During the year 1879 these manufactories consumed $2,400,000 worth of raw material, which produced over $5,000,000 worth of manufactured articles, which find a market not only throughout the United States and territories, but are shipped to Europe and South America. EARLHAM COLLEGE,

RICHMOND, IND.,

IS CONTROLLED BY A BOARD OF MANAGERS APPOINTED BY THE INDIANA YEARLY MEETING OF FRIENDS (ORTHODOX).

Said College was organized in 1859, but a Boarding School for instruction in the higher branches had already been in operation for about twelve years.

There are two regular courses of study of four years each. The degrees conferred are A. B. for the Classical, and B. S. for the Scientific Course.

Students may receive a second degree by an additional year of study at the College, by an examination on selected studies, or on the presentation of a satisfactory thesis.

There is a Preparatory School, with a two years' course, and students are allowed to select such studies from the curriculum as they are qualified to pursue to advantage.

The College has Libraries containing in all near 5,000 volumes, an Observatory supplied with an Equatorial Telescope, a Transit instrument and an Astronomical Clock, and a Museum of Zoology, Geology, Archæology, etc.

OLD WAY. (TRADE MARK.) NEW WAY.

EARLHAM COLLEGE, April 24, 1880.

I have tried the following experiments with *Lincoln's Lightning Fluid Soap:* First, with linen and cotton fabrics, the strain of which was carefully tested in pounds and ounces. They were boiled in rainwater, with the Fluid soap added according to directions, for a much longer time than the directions require. Upon again testing their strength, after rinsing and drying, it was found to be unchanged. I made another experiment, using double the amount of Fluid Soap, and boiled the goods one hour, with the same result. I then made a mixture of one-half of each water and Fluid Soap, which was with near an hour's boiling, and the test showed that the fabric was not in the least degree damaged. I am satisfied, from these and other experiments conducted carefully and thoroughly, that *Lincoln's Lightning Fluid Soap*, in the proportions designated and according to directions, will not injure or discolor clothing by use, no matter how extended.

JOSEPH MOORE, *President Earlham College.*

To Whom it may Concern: RICHMOND, IND., May 1, 1880.

The undersigned take pleasure in saying that "Earlham College" is one of the first-class institutions of learning in the country, having full and complete philosophical, astronomical and chemical apparatus, and full professorships; and the President, Joseph Moore, ranks high as a scholar, having attended the course of Scientific Studies at Harvard College, and we have full confidence in his ability, capacity and integrity in all matters submitted to his skill and judgment.

SCHOOLS, LIBRARIES AND CHURCHES.

Its public schools are second to none in the state, employing 50 teachers, and together with three private schools, furnish instruction to nearly 3000 pupils. Earlham College, situated one-half mile west of the city, is conducted by the Friends society, through a board of twelve managers, employing nine teachers, and in 1879-80 the enrollment showed 164 pupils. Morrison Library, comprising over 10,000 volumes, was established by donation of the late Robert Morrison, and is contained in a substantial building erected for that purpose by the donor. Its use is free to all citizens of Wayne township, which comprises the city and immediate vicinity. The Wayne Law Library Association has in the library of the court house a law library of 2000 volumes. There are 24 churches of nearly all denominations, and of good substantial architecture. Among its charitable institutions are to be found Home for Friendless Women, Orphans' Home, and the Wernley Orphans' Home, which is a German Lutheran institution.

THE PRESS

is represented by five newspapers, three of which are daily and weekly—*Palladium*, *Independent* and *Evening Item*, and two weekly only—*The Telegram* and *Volkszeitung*. Richmond has seven hotels, prominent among which is the Githens House, strictly first-class, four banks, three National and one private, two opera houses. The Atlantic and Pacific, American Union, and Western Union Telegraph, and American and United States Express Cos. have well equipped offices in the city. Almon Samson, postmaster.

Sedgwick's Steel Wire Fence

SEDGWICK BROS., Prop'rs,

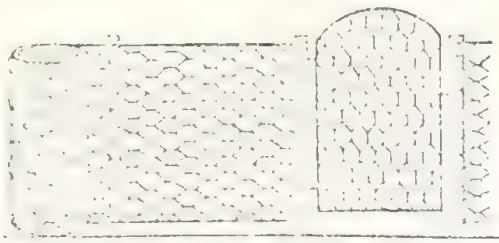

Cor. 12th and North Sts., Richmond, Ind.

Each year the question of the cheapest and at the same time the most durable and effective fence becomes more prominent, and it has remained for the firm of SEDGWICK Bros. to solve the problem. This they have done by the invention of machinery by which wire can be rapidly made into a double twist net-work of diamond shape mesh. This is conceded by all who have seen it to be the most scientific and economical manner in which steel or iron can be used to insure the greatest strength and durability.

THE SEDGWICK STEEL WIRE FENCE

Is the only general purpose wire fence in use. It is just the fence for gardeners, farmers, stock raisers and railroads, and is very desirable for lawns, parks and cemeteries.

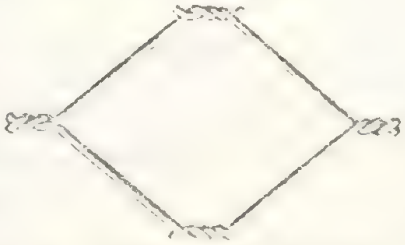

Wherever it has been tried it has given satisfaction, and we offer no other testimonials than full and free reference to all our patrons, knowing that our fence will wear itself into favor.

THE SEDGWICK GATES

Are made of wrought-iron pipe and steel wire, and defy all competition in neatness, lightness, strength and durability. These gates are all fitted with our adjustable hinge that allows of the gate being set high or low, and to open either way or both ways, with spring latch and either double or reversible catch, as per order. All our gates are specially suited to self-opening attachments.

P. S.—Our net-work will be found excellent for grape arbors, trellises, flower beds and various ornamental purposes. It will be found specially useful in bottom lands subject to overflow.

Ask your hardware dealers, or send for Circular.

This Cut represents the general shape of Mesh, and shows the twist correctly.

NEW SAW SHOP!

J. S. PARK,

Sawmaker & Repairer,

ROCKPORT, - - INDIANA.

All kinds of saws set and sharpened, gummed, retoothed, hammered and straightened in the best manner. Old crosscut saws made to work as good as new. I can furnish testimonials from the leading mill-men and farmers that my work is superior to any that is done in Southern Indiana. I make it a specialty hammering and straightening extra large circular saws that others have failed on. My prices are lower than any shop in the West.

ROME CITY. An attractive, healthy watering place on the shore of Sylvan lake, of 500 inhabitants, is in Orange township, Noble county, 8 miles northeast of Albion, the county seat, on the Grand Rapids and Indiana Railroad. Sylvan lake is a very beautiful body of water, with islands of rare beauty resting in it, on the largest of which, known as Island Park, are pavilion, restaurant, fountains, etc., belonging to the Island Park Assembly, a Christian institution, destined to prove very successful. The lake is well supplied with fish, and is one of the most charming boating places in Northern Indiana. Messrs. Owen, Swinehart & Co. have a fleet of fifty clinker, family and fishing boats, and all kinds of fishing tackle. The W. O. Hughart Steamer Company run two fine steamers and a new barge, which are comfortable, handsome and reasonable as to price. The only hotel in the place, a fine brick building, erected in 1880, and

known as the Sylvan Lake House, owned by Mr. S. W. Dodge, is not surpassed in this part of the state, and may safely be called "The Tourist's Home." Its mineral springs, after the most scientific and careful analysis by eminent chemists, are pronounced to be the most beneficial in the state, and wonderful cures are reported from use of their waters. The Rome City Mineral Spring Therapy and Surgical Institute, Dr. C. A. Wilson proprietor, is located at the springs, and his system of treatment has proven wonderfully successful in curing rheumatism, neuralgia, consumption and a host of other diseases.

The manufacturing interests of the place include one flour mill and two saw mills. Its religious and educational facilities are good, in fact, Rome City offers inducements to the tourist, invalid and sportsman that can not be found elsewhere in Indiana. The Grand Rapids & Indiana Railroad is first-class in every respect, and is provided with all necessary accommodations for the transportation of the tourist, invalid or sportsman. SOUTH BEND. The county seat of St. Joseph county, is the third largest manufacturing city in the state, located on the St. Joseph river, which furnishes a water power that no other stream in Indiana can compete with. It is traversed by

the Michigan Central, North Western Grand Trunk, Lake Shore and Michigan Southern Railroads, 85 miles east of Chicago and 160 north of Indianapolis. The city has a population of 13,324, an increase of over 100 per cent. since 1870, fully one-half of which are employed in its extensive manufactories. Its wide streets are well lighted by gas. It has a good fire department, and a bonded indebtedness of $275,000, but no floating debt whatever. The valuation of property, real and personal, for taxation, will reach fully $5,000,000 for 1880. No city in the west is better supplied with educational facilities; besides the high school, ward schools, and St. Joseph Academy, two miles north, is the old established and well known Notre Dame University and St. Mary's Academy, the former for males, the latter for females. These institutions have built for themselves an envious and world-wide reputation. The city supports four banks—two national and two savings—several churches of different denominations, and seven hotels, among which the Oliver and St. James are the best, and are both decidedly first-class in every respect, and are not equaled in Northern Indiana. South Bend has a very healthy location, is supplied with a mineral well and baths, and is destined to become the largest manufacturing place in Indiana if it continues to grow in that branch of trade as heretofore. It can now enumerate the following factories, mills, etc.: Three flour mills, a chair factory, two paper mills, a sewing machine wood work factory, three planing mills, an edge tool factory, a wind mill factory, file works, one woolen mill, three furniture, two plow, five wagon, one bracket, one grain drill, one clover separator, a stone and cement and two pump factories. Prominent among its leading manufacturing firms is the Koontz Bros., manufacturers of the celebrated "Hercules" Wind Mill. This is an enterprising firm, and their mill has no superior in the market. The Mishawaka Wood Pulp Co., with mills located at Mishawaka and South Bend, are extensive manufacturers of fine ground wood pulp, also South Bend Chilled Plow Co., manufacturers of the celebrated South Bend Chilled Plow. In the manufacture of wagons and carriages, this city stands foremost in the United States, and Mr. A. Coquillard, manufacturer of the well known celebrated "Coquillard" Wagon, while not representing the largest institution, places on the market a superior road wagon that is becoming more popular each year, which im-

THE FAVORITE WAGON AT HOME and ABROAD

NEEDS ONLY A TRIAL TO BE APPRECIATED!

EQUALLED BY FEW, EXCELLED BY NONE!

ANY PARTY IN WANT OF A FIRST-CLASS WAGON OF ANY DESCRIPTION, WILL CONSULT THEIR OWN INTEREST BY CALLING ON MY AGENT BEFORE PURCHASING.

REASONS WHY.

BECAUSE They have as good, if not the best reputation at home and abroad -- each wagon perfect in all its parts.

BECAUSE My prices are as Low as the Lowest for first-class Wagons.

BECAUSE They are built by skilled mechanics upon scientific principles, combining the greatest strength with lightness and ease of draft.

BECAUSE The Thimble skeins are made to our own pattern from selected iron, weighing more than most of others, and are set by Patent Skein Setters, thereby making the perfect running wagon.

BECAUSE The wood-work is made of the choicest selected Indiana timber, thoroughly seasoned, kept under cover, and each piece carefully inspected, using tough white cut shell bark hickory for axles, and white oak for wheels and gears.

BECAUSE They are made with the latest and most approved machinery from uniform patterns, and each wagon, in all its parts, a fac-simile of the other.

BECAUSE It is the best and heaviest ironed and finest painted wagon in the market.

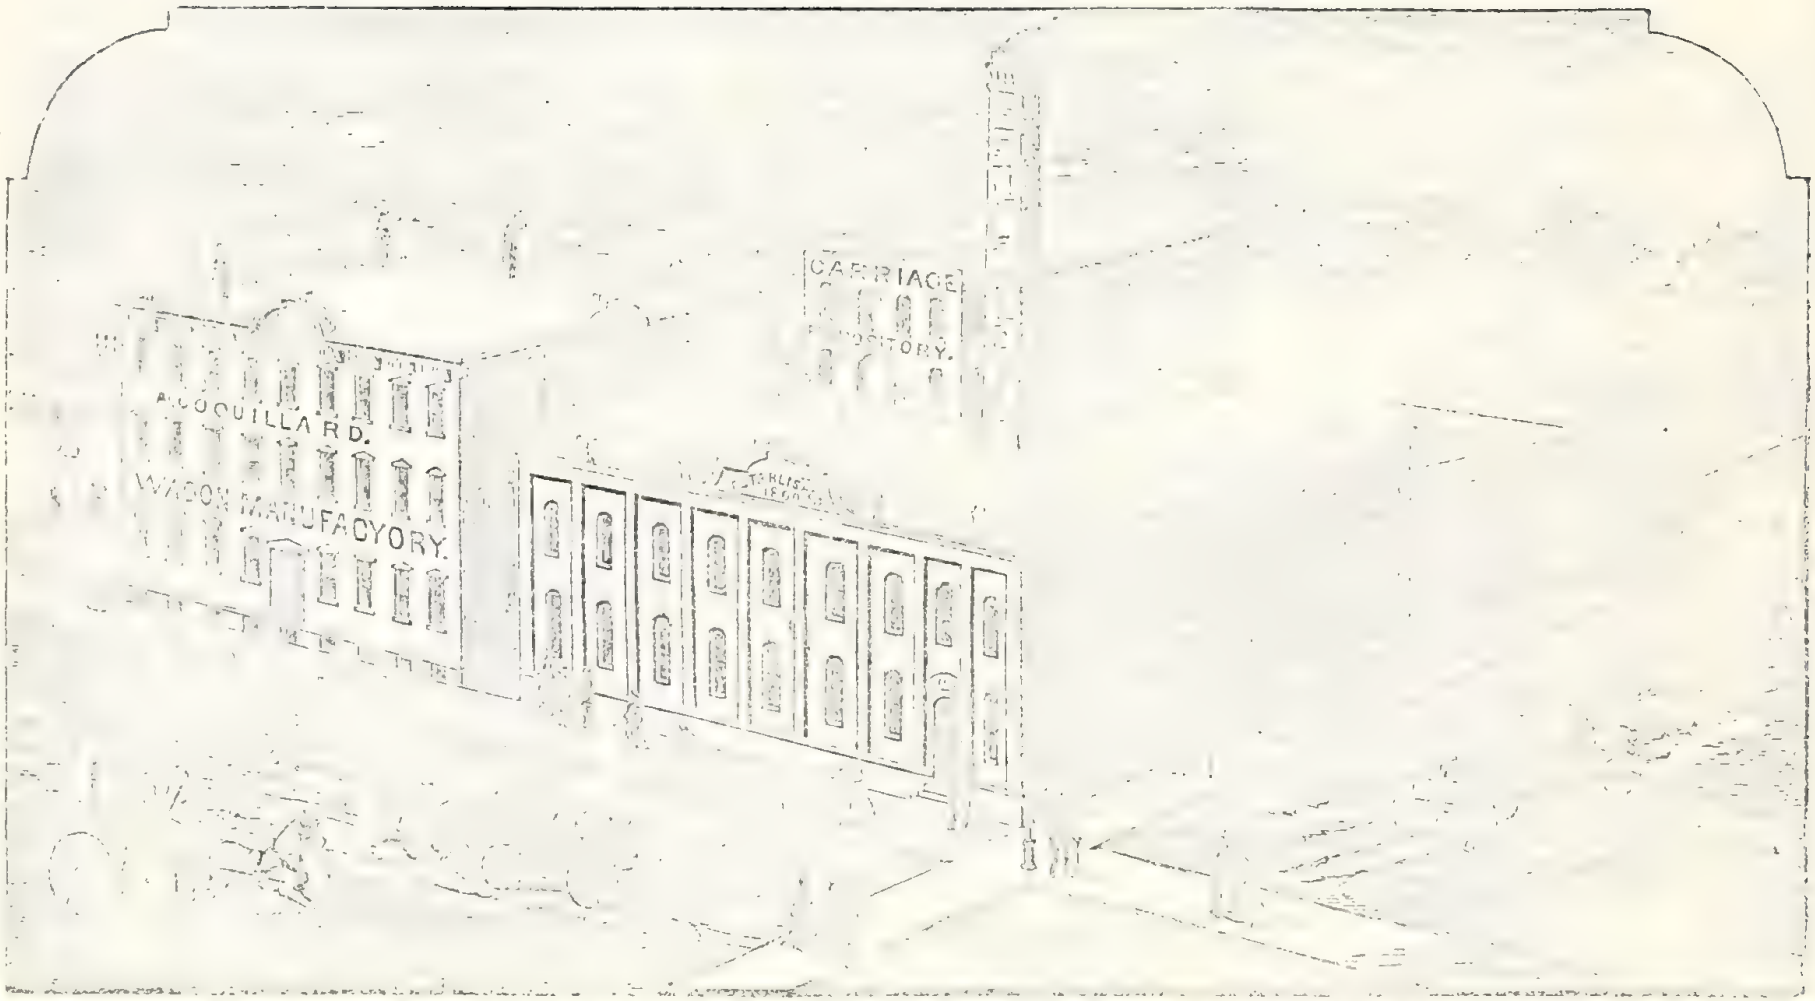

BECAUSE They have been before the American public for the last sixteen years, during that time over **50,000** have been sold and established an enviable reputation, and are sold only by responsible parties, and every wagon guaranteed to give entire satisfaction.

BECAUSE They are made under the personal superintendence of the proprietor, and not entrusted entirely to foremen, as is the case in most large factories.

I also make a full and complete line of Buggies, Carriages and Sleighs; light work of every description; Side-Bar, Platform and Elliptic Spring Wagons.

UNIVERSITY
OF
NOTRE DAME

First.—This Institution is now in a more flourishing condition than ever before.

Second.—It has grater facilities to impart knowledge.

Third.—The buildings are magnificent, far surpassing the old ones in point of architecture, convenience, and comfort. They are furnished with gas, hot and cold water, are scientifically ventilated, and, in a word, have all the modern improvements.

Fourth.—The number of students is greater than at any period in the past. The faculty is first-class and larger than ever, numbering forty members.

Fifth.—Students of five years and upwards are received, and are divided into three grand divisions, viz.: Minims, Juniors, and Seniors. Minims comprise all over five and under thirteen; Juniors, all over thirteen and under seventeen; Seniors, all over seventeen.

THE FOLLOWING COURSES ARE THOROUGH:

Preparatory, Commercial,

Scientific, Classical,

Law, and Medicine.

St. MARY'S ACADEMY

Notre Dame, Ind.

UNDER THE DIRECTION OF THE SISTERS OF HOLY CROSS.

THE COURSE OF STUDIES IS THOROUGH IN THE CLASSICAL, ACADEMICAL, AND PREPARATORY DEPARTMENTS.

No Extra Charges for French or German,

AS THOSE LANGUAGES ENTER INTO THE REGULAR COURSE OF STUDIES.

CONSERVATORY OF MUSIC,

Under the charge of a competent corps of teachers; comprises a large Music Hall and twenty-seven separate rooms for harps and pianos—a thorough course for graduation in theory and practice. Æsthetic composition. Large Musical Library in French, German, English and Italian; four weekly lessons and daily practice; weekly lessons and recitals.

In the ART DEPARTMENT the same principles which form the basis for instruction in the great Art Schools of Europe are embodied in the course of Drawing and Painting. Pupils in the Schools of Painting or Music may pursue a special course.

Those who have passed creditably through the Academic and Classical course receive the Graduating Gold Medals of the Departments. Graduating Medals are awarded to the students who have pursued a special course in the Conservatory of Music or in the Art Department.

Prize Gold Medals awarded in the following courses: German, French, Christian Doctrine, Painting and Drawing, and Domestic Economy, in the Senior Department; and for Polite and Amiable Deportment, both in the Senior and Junior Departments.

The Chapman Tubular or Bored Well,

As shown in the "New Style," differs materially from the Driven Well, or the "Old Style," the latter being driven often meets obstacles that can not be overcome, such as clay, hard-pan, rock and quicksand. In making the CHAPMAN WELL all these difficulties are easily overcome by boring inside and ahead of the pipe, settling the pipe as fast as the hole is formed by the tools (we use no point, but work with pipe open), thus by adding more work-pipe and more tubing any desired depth can be reached. After water sufficient has been reached, the screen is dropped inside and the tubing or pipe drawn back until the screen is uncovered, as at F, Fig. 1; the "check," Fig. 3, is placed and the tube expanding is expanded, as at B, Fig. 1; the plunger, Fig. 2, attached to wood rods is inserted, as at J; attach the rod to pump handle, and you have a well where no driven well can be made. The "check" and "plunger," Figs. 2 and 3, are brass bodies with hard rubber cups, making them durable and non-corrosive. To repair the pump, disconnect the rod and handle, remove the top of the pump, pull the "plunger," and with a grab pull the check, then use a "puller" to remove the screen and you have everything on top of ground. Repair and return them and your pump is new. The "check" and "plunger" being submerged, the water is LIFTED and not SUCKED.

SULLIVAN. The capital of Sullivan county is a thrifty, enterprising growing village, located on the E. & T. H. R. R., 22 miles south of Terre Haute, and 98 southwest of Indianapolis. It was first settled by Enoch Walls, and laid out as a town in 1842, is incorporated and contains 2,500 inhabitants. The court house was erected in 1853, and its new addition built in 1871, and is within 100 yards of being in the direct centre of the county. The place has substantial business blocks, fine residences, a handsome opera house, and reliable, energetic business firms, prominent among which is the firm of John Davis & Sons, which are highly respected for their business qualities and integrity, having built up one of the largest hardware and general agricultural implement trades in Southern Indiana by their close attention to business. Sullivan contains six churches of different denominations, an excellent graded school of ten departments, three hotels, and two banks. The press is represented by three weekly newspapers, *Democrat, True Democracy* and the *Union*. The city is surrounded by a very fertile agricultural district, which is underlaid with a choice quality of block coal, and is destined to become a place of no unusual importance in the near future. TERRE HAUTE. This beautiful and progressive city, now the third in Indiana in population and wealth, is most delightfully situated upon an elevation of some 60 feet on the east bank of the Wabash river, near the lower edge of Fort Harrison prairie, regarded as the finest in the county. The city has always been known as the beautiful "Prairie City of the West." It is the county seat of Vigo county, one of the richest agricultural counties in the State. The census of 1880 shows a population of 26,593. Its growth for the last 30 years has been steady and substantial. Its population in 1850 was only 4051; in 1860, 8503; in 1870, 16,103, of whom 13,003 were natives of the United States and 3101 were foreign born. Its growth during the past ten years has exceeded that of any city in the state, and its prospects are most excellent. The city is 73 miles west of Indianapolis, and has two straight line railroads connecting it with that city. It is 102 miles north of Evansville, by which it is connected by the E. & T. H. R. R. It is nearly equi-distant from each of the cities of Cincinnati, Chicago and St. Louis. Its railroad and general transportation facilities can be said to be hardly second to any inland city in the west, the Wabash river being navigable during the greater part of the year for light draft water craft, and there being ten railroads centering here. In consequence of its proximity to the block coal fields of Clay county, only 12 miles, and the rich beds of bituminous coal all around it, making the price of that fuel only the cost of mining and delivering it, the city has developed in the past ten or twelve years into one of the most important manufacturing cities in the state, prominent among which is the iron and nail works, and car works, the Hudnut hominy mills, which are the largest in the world, having a grinding capacity of 1000 barrels per day, and a storage capacity of 300,000 bushels, in addition to several foundries, mills, and other machine shops of various kinds.

Its educational facilities are very fine. The Indiana State Normal School, which is in a most prosperous condition, is located here. The Rose Polytechnic Institute, destined to take rank as the leading institution of this kind in the United States, with an endowment of one-half a million dollars, all the work of one man, the late Chauncy Rose, is also located here. It has ten newspapers (of which three are dailies), and 31 churches.

In consequence of its porous soil, excellent drainage, and purity of atmosphere, it is regarded now as the healthiest city in the state, its mortuary list being less in proportion to population than any city in Indiana, no epidemic of any kind ever having visited the place. The Magnetic Artesian Well here is rapidly attracting the attention of invalids on account of the great curative qualities of its water. Express, Adams and American. N. Filbeck, postmaster.

UNION CITY. The most important manufacturing place in Randolph county, has a population of 4500, and is located on the Ohio state line, 10 miles east of Winchester, the county seat, and 85 northeast of Indianapolis. It is pleasantly located about midway between the Ohio and Indiana capitols, in one of the best agricultural districts in the state, and has most excellent rail facilities, being traversed by the Cleveland, Columbus, Cincinnati and Indianapolis, and Pittsburgh, Cincinnati and St. Louis Railways, is also western terminus of the Dayton and Union Road, giving direct connection with all of the large eastern and western cities. The city has substantial brick and stone business blocks, fine residences, wide streets, lighted by gas, and first-class water-works. There are two banks, five hotels, three weekly newspapers—*Times*, *Eagle*, and the *Plain Dealer*—two graded schools and eight churches, in the city. For its size, Union City is not surpassed as a manufacturing place in the state, having two planing mills, two furniture factories, hub, spoke and screw factory, saw mills, butter tub and pail factory, flax mill, trunk slat factory, brick and tile yard, whiffletree factory, foundry and machine shop, flax mill, pump factory, three flour mills and a stave and heading manufactory, which demonstrate that the town is active and enterprising. AMERICAN GIANT ENGINE.

SMITH BROS.,

ENGINEERS, MACHINISTS

—And Manufacturers of—

Steam Engines, from 4 to 75 Horse Power, Steam Pumps, Boiler Feeders, Steam Pumping Engines for Water Works, capacity from 300 to 3000 gallons per minute, Jet Pumps, Force Pumps, etc.

Flour Mills Built on Improved Plans.

Special attention given to Repairing Steam Engines and Flour Mill Machinery.

In presenting the card of the American Giant Engine, we confess to some pride in saying it is one of the most compact, simple, durable and efficient Engines made in the country.

It has been the object of the designer, while constructing an engine artistic in form, to distribute the metal so as to obtain the maximum of strength with the minimum of weight, and to regard the best known rules and maxims in Engineering. Experience has taught us, that in the Vertical Engine there is very much less friction and consequently less wear on the cylinder, packing-rings, piston, rod-slides, cross-head and all other wearing parts of an engine. Thus we have adopted as our standard the Vertical Engine. The cylinders have 4 ports, the valve, a long double D valve. Packing-rings are adjusted by steam. Piston-rod, valve-rod, wrist-pins, crank-shaft, etc., are steel. The slides are turned out in perfect line with the cylinder. The cross-head gibbs are adjusted by keys, crank-shafts are squared to fit close between main boxes, so there can be no end motion to shaft and to hold engine in perfect line—Judson's Governor.

The cut is a *fac simile* of our engines from 4 to 15 H P, which are either on hand or in course of construction. Engine from 20 to 75 H P differ only in a crank plate being used instead of crank. These are built only to order.

These engines are adapted to every place where a stationary engine is used as a motive power, but more especially for flouring mills, grain elevators, printing offices, tile mills, machine shops, carpenter shops, furniture manufactories, plantation mills, etc.

VALPARAISO. The county seat of Porter county, is a thrifty incorporated village of 4460 population, pleasantly located on the P. F. W. & C. and N. W. G. T. R. Rs., 155 northwest of Indianapolis, and 45 southeast of Chicago. The place has excellent county buildings, substantial business blocks, several handsome church edifices, good graded schools, and the Northern Indiana Normal school. It supports two national banks, two weekly newspapers—the *Messenger* (Democratic), and *Vidette* (Republican)—and five hotels, among which the Tremont, standing most prominent, is centrally located and first-class in every respect. Valparaiso has not as yet become fully developed as a manufacturing place, but now has two planing mills, a foundry, two flour mills, one paper mill and one woolen yarn factory. The American and Adams Express and Western Union Telegraph companies have offices in the village. T. C. McCarthy postmaster.

VEVAY. The seat of justice for Switzerland county, is an incorporated city of 2000 inhabitants, located about 100 miles south of Indianapolis and 75 below Cincinnati, on the Ohio river, in the midst of a good agricultural district. The place is in a flourishing condition, having no bonded debt, and is supplied with good county buildings, substantial business blocks, six churches, excellent graded and select schools, four hotels and a national bank. The press is represented by two weekly newspapers, the *Reveille* (Republican), and the *Democrat*. Its manufacturing interests are as yet undeveloped, consisting of a woolen mill, chair factory, flour mill, furniture factory and two saw mills, but owing to its cheap transportation advantages Vevay is destined to become at no distant day a manufacturing place of considerable importance. It has daily stage communication with Liberty Station, Ky., its nearest rail approach. Express, Adams. Mail daily. Alfred Shaw, postmaster.

VINCENNES. The oldest town in the state, is the county seat of Knox county, on the Wabash river, 117 miles southwest of Indianapolis, 149 east of St. Louis, and 239 southeast of Chicago. Its railroad facilities are excellent, being traversed by the O. & M. and E. & T. H. R. Rs, is the southern terminus of I. & V., northern of Cairo and Vincennes, southern of Danville and southwestern, and western of Vincennes and Petersburg R. Rs. The city is incorporated, has 12,000 inhabitants, and is regularly laid out, the streets running at right angles are nicely paved, beautifully lined with shade trees, and lighted by gas. The public buildings embrace the county buildings, which are both substantial and handsome, ten churches, and the Vincennes University, which is an ornament to the city, both in its grade and appearance. There are two national banks, three weekly and two daily newspapers—weekly *News* (Democratic), *Commercial* (Republican), and *The Western Sun* (Democratic). Dailies—*Commercial* and *Western Sun.* Vincennes is surrounded by one of the most fertile agricultural districts in the state. Corn and wheat are the principal crops raised, and form the chief article of export. It has eight hotels; the Grand is acknowledged by all to be the best, and, in fact is strictly first-class. In the line of manufactories the city has four flour mills, agricultural implement manufactory, three foundries and machine shops, woolen mill, furniture factory, planing mill, and two pork packing establishments. Western Union Telegraph, Adams and Ohio & Mississippi Express Companies have offices here. Wm. N. Denny, postmaster.

WABASH. The county seat of Wabash county, is situated on the Wabash river, in a very rich agricultural district. The bottom lands of the Wabash, Mississinewa, Salamonic and Eel rivers, all of which flow through the county, are noted for their fertility. The city is incorporated, and has a population of 4,500, located at crossing of W. St. L. & P. and C. W. & M. Rys. The latter road has erected extensive machine shops here. It is 90 miles northeast of Indianapolis, and 43 southwest of Ft. Wayne. A good quality of building stone is found surrounding the city—in fact, the place is sometimes called Rock City. The business houses are mostly built of that material, and are very substantial. The streets are well improved, have miles of flag-stone sidewalk, and are beautifully lined with shade trees.

The city is practically out of debt, and evidences of thrift and enterprise are everywhere visible, it being famous as the first place where the experiment was made of lighting a city by electric light, and a large majority of her citizens consider it a great success.

The court house, erected in 1879, is one of the handsomest in the state.

Its educational and religious facilities are excellent, having 1 high, 1 graded and 2 private schools, and churches of nearly all denominations. The press is represented by the Wabash *Weekly Courier* (Democratic), and the *Plain Dealer* (Republican). Last named was established in 1859, has a large circulation, and is ably edited by Theron P. Keator. There are three banks, one national and two private, and four hotels, among which the Sherman House, opposite the C. W. & M. depot, will be found very comfortable, and with a good table. Wabash is essentially a manufacturing point, and has steadily advanced in the number and magnitude of its industries, chief among which may be enumerated four flour mills, two foundries and machine shops, furniture manufactory, spoke and hub factory, woolen mill, flax mill, stave and heading manufactory, lime kiln, brick yard, school furniture manufactory, two saw mills, planing mill, and linseed oil mill. Express, Pacific and United States. Telegraph, Western Union and American Union. Daily stage route from Somerset, fare 50c., and the usual mail facilities.

delightfully located in a fertile agricultural district, and surrounded by three lakes, known as Pike, Centre and Eagle lakes, which give it the very appropriate name of "Lake City." These lakes are amply provided with boats for fishing, rowing and yachting purposes, and are stocked with fish, thus making Warsaw a delightful summer resort. It has excellent county buildings, substantial business blocks, wide streets beautifully lined with shade trees and lighted by gas, and supports two banks, three weekly newspapers—*Northern Indianian* (Republican), *National Union* (Democratic) and the *Republican*—and three hotels, of which the Wright House stands at the head, and is in every way first-class. There are in the place five churches—Methodist, Baptist, Presbyterian, Catholic and Christian—graded schools, and a public library containing 500 volumes. Its manufactured articles are numerous and extensive, and include brick, lumber, sash, doors and blinds, cooperage, furniture, flour, handles, plows, wagons, wood stock and cast-iron machinery. The American and Adams Express and Western Union Telegraph companies have offices here. John N. Runyan, postmaster.

WASHINGTON. The county seat of Daviess county, with a population of 4326, is a thrifty incorporated city, located on the O. & M. Ry, 19 miles east of Vincennes, 136 southwest of Indianapolis, 168 west of Cincinnati, and 172 east of St. Louis. The first deed for land upon which the place stands was recorded May 2, 1817, and soon thereafter it was made the county seat, court being held in an old log cabin. It now has one of the finest court houses in Southern Indiana, erected at a cost of $85,000. The bonded indebtedness of the city is $10,000, with a surplus in the treasury to liquidate the same. The city has excellent water works, is lighted by gas, the works of which were erected in 1878, at a cost of $30,000, four public school buildings, eight churches—Baptist, Christian, two Catholic, two Methodist and two Presbyterian—a handsome opera house, two banks, four hotels, two weekly newspapers and several factories and mills. Express, O. & M. Telegraphs, Western Union, and Washington and Petersburg. Mail daily.

WATERLOO. Is situated in Union township, DeKalb county, at crossing of Air Line Division of the L. S. & M. S. and Ft. W. & J. R. Rs., 4½ miles north of Auburn, the county seat. A portion of the village was first settled in 1839, but the southern or main part was established in 1856, and now contains 1500 inhabitants. Its public buildings are good, and comprise one graded school building, erected in 1872-3 at a cost of $20,000, one ward school, two public halls and eight churches—Presbyterian, Methodist, United Brethren, Disciple, Catholic, Evangelical and two German Reformed. The bonded indebtedness amounts to $9,000, contracted by building of the graded school. There is a good fire company, two hotels, two banks and one weekly newspaper, *Waterloo Press*, in the village. Its manufacturing interests are as yet undeveloped, comprising now two planing mills, flour mill, foundry and two saw mills. This is the location of the Northeastern Indiana Agricultural Association, established in 1872, having very excellent fair grounds and one of the most successful in the state. Grain, live stock and lumber are exported. Express, United States and American. Telegraph, Western Union. Mail daily. John M. Kinsey, postmaster.

PATENTS. Caveats, Prints, Labels, Copyrights. All business pertaining to these and like matters, promptly and carefully attended to, by C. BRADFORD, Solicitor of Patents, 18 Hubbard Block, Indianapolis, Indiana.

DUWEL'S

PATENT STEAM DRYER

For Drying Tobacco, Malt, Oat-Meal, Corn-Meal, Fruit, Wet Grain, Etc., Etc.

Brewers will find this new invention far superior to the old style Kiln for drying Malt, as it is automatic in its operations, dispensing with the services of a hand in turning the grain. It will dry more thoroughly and in less time than a kiln, and completely remove the sprout from the grain without extra handling.

A Dryer 35 feet long by 36 inches in diameter will dry 500 bushels of malt per day.

To Millers this machine is indispensable for drying Corn-Meal, Damp Grain, etc. Spring Wheat can be greatly improved by passing through the dryer, giving it more life and making a better yield and finer grade of flour.

A Dryer 25 feet long by 30 inches in diameter will dry 100 barrels of Oat or Corn-Meal per day.

Tobacco Manufacturers will find this a vast improvement on methods heretofore in use. A Dryer 15 feet long by 36 inches in diameter will dry 3000 pounds of cross-cut or 2500 pounds of stem tobacco per day. The longer the dryer (affording more radiating surface) the more rapidly will it perform its work. A cutting machine may be so placed that the tobacco, when cut, falls directly into the dryer, and by the time it reaches the oscillating separator or seive at the opposite end, it will be ready for packing.

In fine, this dryer occupies less space than any other. Can be run by steam or fire. If by steam, the exhaust will sufficiently supply it, and when condensed returns to the reservoir.

All orders addressed to us will be promptly attended to.

—FOR THE SALE AND PURCHASE OF—

Grain, Flour, Seeds, Hops, Broom Corn, Potatoes, Beans, Peas, Green and Dried Fruit, Dressed Hogs, Calves, Beeves, Live and Dressed Poultry, Game, Butter, Cheese, Eggs, Hides, Pelts, Furs, Wool, Beeswax, Tallow, Pressed Hay, Brooms, Lemons and Oranges.

—DEALER IN—

Coarse and Fine Flax Tow.

SOLE AGENT FOR THE

North Star Egg Case!

The cheapest, most practical and durable Case in use. Any child can lock and unlock it, and yet it is secure in shipping. No nails or screws necessary to fasten the cover. Each cell holding an egg has a complete lock in itself. Trays or Fillers patented Dec. 30, '73; Dec. 15, '74; Aug. 21, '75; July 18, '76.

Trays folded for shipping, 10 sets No. 1 in one case. Trays folded for shipping, 15 sets No. 2 in one case.

Patent Spring Fastening on each end of Cover.

They are so interlocked that each cell holding an egg has a complete lock of itself, which makes it impossible for them to come apart. No nails, no screws necessary to fasten covers, simply a patent fastening on each end, which any child can lock or unlock.

In using the patent fastening on covers a great deal of time is saved in packing, as two "North Star Cases" can be packed to one of any other case where nails or screws are used.

THE MOORE.

Combination Office Desks,

THE MOST THOROUGHLY COMPLETE BUSINESS, PROFESSIONAL, LIBRARY AND PRIVATE DESKS IN THE WORLD.

It has no leaf to fold up, but a Solid, Substantial Sliding Table from which the contents do not have to be removed before closing. Notice the Compact, Convenient Filing Capacity—Nearly 150 Compartments of Varied and Practical Dimensions.

THE COUNTING-HOUSE KING—Sitting Position.

This cut represents the "Counting-House" or "Office King," with the Sitting and Standing Positions in Position for Use, each of which can be used independent of, or in connection with each other, as desired.

(Counting-House King—Standing Position.)

This cut represents the ***Standing*** side of the same desk as above, with the writing section closed. It is supplied with sufficient filing capacity for its accommodation, without infringing upon the other departments.

This pattern has become very popular with manufacturers of all kinds, and ***hundreds attest its necessity and value.*** For full particulars, address

Moore's Office and Drawing Room Queen.

STYLE C.

The above illustrations represent the "Queen" of Desks open and closed. This style is well adapted to Attorneys, Bankers, General Office and Private Use, and has already become a general favorite on account of its compact and systematic arrangement.

IT IS THOROUGHLY PRACTICAL IN EVERY SENSE.

Is a model of neatness and convenience, and for office and private purposes, HAS NO SUPERIOR. It is constructed in different sizes and grades, to accommodate offices of varied capacity, or to grace the homes of the most luxurious.

This style also contains, as do ALL MOORE DESKS, A SOLID, COMFORTABLE SLIDING TABLE. This feature will be appreciated by every business man, and

No Desk can be Complete or Valuable without it.

Moore's General Insurance Desk.

[Interior View, Sitting Position.]

This Desk is a Convenient, Practical, Model Insurance Office. It measures, closed, 5 feet in length; 3 feet 6 inches in breadth; and 3 feet 8 inches in height. It is divided into THREE SECTIONS—two of which belong to the Sitting Division and one to the Standing Department. These sections contain upwards of

175 COMPARTMENTS

Consisting of Drawers, Shelves, Piqeon Holes, Blank and Book Racks, etc., all of practical dimensions, and arranged to accommodate the different positions separately or in unison. The Sitting Table is 4 feet 7 inches in length, by 21 inches in width. It is Provided with Every Convenience, within easy reach of the writer, and can be removed at will into its recess, *with its contents and unfinished papers undisturbed*. The Standing Table is 5 feet in length, by 2 feet 6 inches in breadth. In this (standing) side may be kept blank policies, reports, envelopes, records, blotters, and, in fact, EVERYTHING PERTAINING TO THIS BRANCH OF BUSINESS. By reference to the accompanying cuts, a fair inference may be drawn as to the construction and location of the different compartments. It weighs, boxed, 750 lbs., cased substantially, and fully warranted as represented.

MOORE'S

Improved Mercantile Desks,

The Most Practical "FLAT TOPS" Made.

No. 1—Outside View.

No. 2—Inside View.

Designed, Manufactured and Sold by

THE MOORE COMBINATION DESK COMPANY,

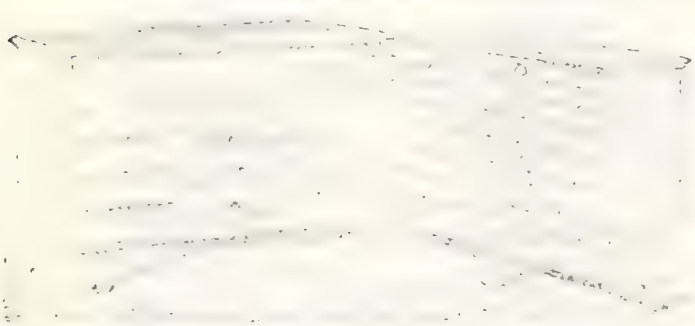

Office, 82 East Market St. *Factory at Brightwood.*

INDIANAPOLIS, IND., U. S. A.

With many persons a "FLAT TOP DESK" is a great favorite. Owing, however, to faulty designs, and the imperfect arrangement of other patterns heretofore devised, many objections had of necessity to be overcome in order to produce an article of practical value. We confidently assert that we have PRODUCED A DESK WHICH COMBINES IN A NEAT, SUBSTANTIAL FORM, THE ELEMENTS OF ECONOMY, COMPACTNESS, CONVENIENCE AND DURABILITY. In a word, we have a FLAT TOP DESK POSSESSING ALL THE MODERN CONVENIENCES of a more expensive article.

They are designed in THREE PATTERNS and FIVE NUMBERS, 1 to 5. The first three numbers are of similar design, as shown by Cut No. 1, varying only in dimensions.

The table or top being movable, renders the compartments underneath as convenient as if located above it.

No. 4—Front Open View.

No. 4—Reverse Side

Seated at one of these desks, one feels that he is surrounded by all the CONVENIENCES NECESSARY for the prosecution of ANY AMOUNT OF BUSINESS IN A COMFORTABLE AND SATISFACTORY MANNER.

With these improved, compact and economical conveniences, Lawyers, Bankers, Merchants and Business Men of all classes can provide themselves with a desk that will render them efficient service at a reasonable outlay. For additional information, address

47 and 49 S. Meridian St., Indianapolis.

To those Interested.

I have made the execution of ***First Class Engraving*** the leading characteristic of my establishment, and shall continue so to do. I can with justice guarantee entire satisfaction to my patrons, having been educated at the publishing house of HARPER BROS., New York, in every detail of my business, adding thereto practical proficiency.

I can safely assert, no other engraving establishment in the west can equal the advantages I am enabled to offer, by means of my extensive and special facilities for the execution of all classes of engraving—Mechanical, Scenery, Implements, Colored Work, &c., &c. My assistants are experts in superior engraving. I employ none but eminently qualified and accurate artists, whom I send to any part of the country on application. Prices always reasonable.

Soliciting patronage, sincerely,

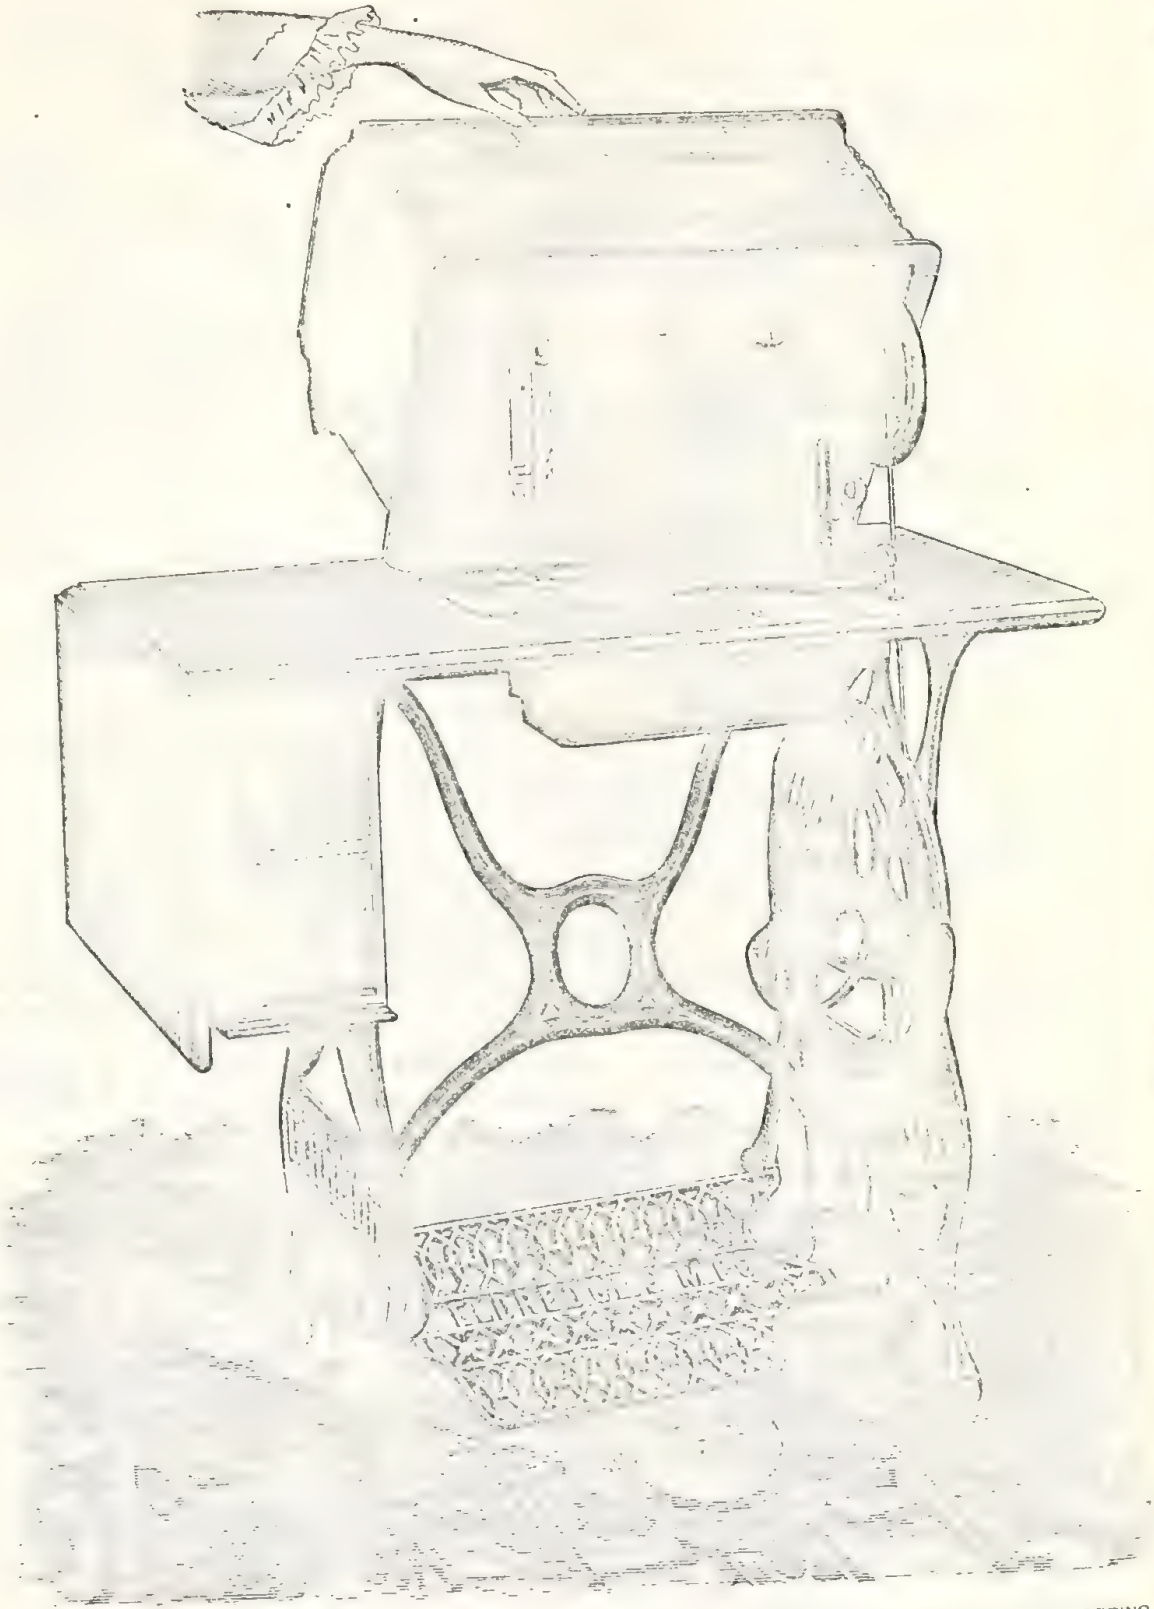

A. T. SEARS.

YEAGLEY'S

BURGLAR-PROOF

SASH LOCK

Sash Holder & Ventilator,

IS THE ONLY PERFECT SASH LOCK EVER INVENTED. IT LOCKS THE SASH AT ANY HEIGHT, AND PREVENTS RATTLING OF SASH.

You can have the top sash down and the lower sash open for ventilation, and the sash can not be forced open any further from without.

It Surpasses all others in Security against Burglars

The Key can not be Withdrawn without Locking the Sash.

The Best Window Lock for Public School Buildings,

As the windows can be locked open at any height, so no one can get in from without. This lock is just what you want for downstairs sleeping rooms and windows opening on verandahs. Especially they are just the thing wanted for hotels at Watering Places, where you want your windows partly open for sleeping rooms. Every house should have them in it. The best fastener for railroad car windows.

A FEW RECOMMENDATIONS OF THE YEAGLEY SASH LOCK.

From I. HODGSON, Architect of Marion County Court House, Indianapolis, Ind.:

"I have made a careful examination of Yeagley's Patent Sash Lock, and regard it the most durable and practical device for its purpose that ever came under my observation. I cheerfully recommend its use to all as a safe sash lock, sash holder and ventilator combined."

From EDWIN MAY, Indianapolis, Architect of the new Capitol of Indiana:

"I cheerfully recommend Yeagley's Patent Sash Lock. It is a complete device for which it is intended by the inventor. I think it is far superior to any other thing of the kind now before the public. It is a valuable and needed invention."

From T. R. TINSLEY, Architect for the Ohio new Asylum for the Blind, and Central Lunatic Asylum, Columbus O.:

"I have examined the Yeagley Sash Lock and am satisfied it is the most practical article for its kind in the building market, it answers a double purpose of fastener and security lock. I recommend its use for public and private buildings."

May 18, 1880. T. R. TINSLEY.

From GEN'L T. A. MORRIS, Member of Board of State House Commissioners for the State of Indiana:

"I consider the Yeagley Sash Lock a practical and valuable invention for the purpose intended. It pleased me so well that I ordered it put on a residence built by my son, and its use confirms my opinion."

Ind'pls, July 17, 1880. T. A. MORRIS.

From Architects, Syracuse, N. Y.:

SYRACUSE, N. Y., Aug. 10, 1880.

"I have examined and tested the Yeagley Sash Lock and believe it to be a useful and practical device for the purpose for which it is intended. I know of nothing of the kind equal to it." H. N. WHITE.

I recommend the above.

C. E. COLTON.
A. L. MERRICK.

McClains Annotated Statutes of the State of Iowa, 1880, being the revision of 1873 as amended by the Session Laws of 1874, 1876, 1878 and 1880, annotated by a digest of ALL decisions construing or affecting the different sections, together with all the organic Laws of the State and Territory, and Tables showing where sections in the Codes of 1851 and 1860 may be found in the Code of 1873 and in this book. By EMLIN MCCLAIN, Esq., of the Des Moines Bar. 2 vols. 8vo. $12.00.

A NEW, FULL AND ACCURATE INDEX, is a feature of this work which is designed to be a complete statement of the Statute Law of Iowa as construed or affected by the decisions of the Supreme Court.

The volumes of reports have been carefully examined one by one to see that no case has been omitted and the cases themselves carefully read. *Digests* and head notes have been ignored, and in short the work is the product of honest and thorough investigation and untiring industry. It will be issued in the confident belief that it is the best work of its character ever published in this country.

BINGHAM, WALK & MAYHEW, 12 East Washington Street, INDIANAPOLIS, IND. SOLID SILVER AND PLATED WARE.

W. B. BARRY,

HOOSIER

WORKS,

Manufacturer and Repairer of all kinds of Saws,

Nos. 132 and 134 South Pennsylvania Street,

(One Square East of Union Depot,)

INDIANAPOLIS, INDIANA.

You will find it greatly to your interest to correspond with me before placing orders for either new saws or for repairs. Every saw is subjected to a careful examination before it leaves the factory by a saw maker of more than twenty five years' practical experience.

AMERICAN
BAG HOLDER

(Patented March 5, 1878.)

NOT IN USE.

After two years of thorough trial by threshermen and farmers, in many parts of the State, the AMERICAN BAG HOLDER has proven a PERFECT SUCCESS, saving ONE man at the threshing machine, and all say, "does the work better." These machines are now offered to everybody, everywhere, with the fullest confidence that all will be more than satisfied who try them, and that it is the only bag holder in use adapted to the wants of the farmer and thresherman.

For Sale at No. 79 West Washington Street, Indianapolis, Ind.,

Frederic Kebler, A.B., M.D., Instructor in Morbid and Physiological Histology.

The REGULAR SESSION, commencing October 4th, ends the last week in February, thus embracing five months. ☞SEND FOR NEW CATALOGUE.

CLINICAL ADVANTAGES.

Three afternoons in each week are devoted to Clinical Instructions in the Good Samaritan Hospital. (Open only to students of the College.) To advanced students in particular this college affords unequalled advantages, on account of the vast amount of operative material; besides the General and Special Surgery by Professors Dawson and Seely, Professor Reamy's Operative Clinic each year covers the entire ground of Operative Gynæcology, and Professor Whittaker's Medical Clinic, with the Dispensary, will add immensely to the facilities for practical illustration.

Morning lectures are given throughout the Session at the Cincinnati Hospital. (Open to students of all colleges on the same terms.)

COLLEGE DISPENSARY.

This vast source of material (averaging over one hundred visits daily) is utilized in the most complete manner by having established *small lecture rooms* [6], capable of seating fifty students each, and having clinics held in them all at the same time. By this arrangement the class is divided and brought directly in contact with patients.

In addition to the usual large number of Medical and Minor Surgical Cases, various special departments are filled with abundant illustrative cases; Skin and Venereal Diseases; Children's Diseases; Gynæcological and Obstetrical Cases; Diseases of the Eye and Ear; Throat Diseases, etc.

The Clinic is open free to students of the college only.

FACILITIES FOR PRACTICAL WORK.

The *Dissecting Rooms* are perfectly fitted up with every convenience for the comfort of the student, and an abundance of material. (During last Session two hundred [200] students dissected). The *Practical Chemical Laboratory* is open day and evening, Dr. Roeder devoting his entire time to giving courses. The *Practical Physiological* and *Microscopical Laboratory* affords every advantage in these important departments.

During the Session of 1879-80, just ended, there were 326 Matriculants; a Graduating Class of 121.

FEES—General Ticket for the Regular Session	$75.00
Matriculation Fee (annually)	5.00
Demonstrator's Ticket	5.00
Hospital Ticket	5.00
Graduation Fee	25.00

The PRELIMINARY TERM will begin on the 6th of September, 1880, and continue until the opening of the Regular Session, the 4th of October. The Preliminary course (for which there is no extra fee), will be one of unusual importance to the student.

The REGULAR WINTER SESSION will begin October 4th. 1880, and continue five months, ending the last of February, 1881.

This course will consist of daily Didactic and Clinical Lectures, with Recitations, Demonstrations, and instruction in Physical Diagnosis and Manipulations in surgical cases.

The Chemical and Physiological Laboratories are ample and complete, affording every facility for practical work in these important departments.

COLLEGE DISPENSARY.

The new Clinic building adjoining the College is complete in its arrangements. Here are spacious waiting rooms for patients, an excellent operating amphitheatre, and a well adapted lecture room for Gynæcological cases, and for special examinations.

More than one clinic is conducted at the same time, and students can pass from one clinic room to the other, and make personal inspection of, and receive practical instruction in the examination and treatment of cases in the various departments.

During the course of the Session almost every variety of Medical and Surgical disease may be seen. Over Ten Thousand (10,000) patients are treated annually in the presence of the class. These Clinics are free to the Student of this College.

At the *Cincinnati Hospital* there will be two Clinical Lectures delivered daily during the entire Session. The Hospital is open to students of all Colleges on the same terms.

The *Dissecting Room* is perfectly arranged for the study of *practical anatomy.*

Good Board can be had at from $3 to $5 per week. Students arriving in the city can send their baggage directly to the College, where it will be safely cared for by the Janitor until they can secure boarding places.

Horizontal Metal Roofing

This Late Improvement in Sheet Metal Roofing

Is The Invention of the Age!

Its Plan of Construction and Quality of Material are Not Excelled.

Fire Proof. Water Proof. Lightning Proof.

Can not be torn off by wind.

The nails are not exposed to the weather.

It is secretly & securely nailed through two piles of the same sheet of metal.

It has many advantages, some of which are:

Simplicity of Construction, Consists of the Fewest Pieces, Has Complete End and Side Connections, Security of Fastening to the Building, Freedom of Expansion and Contraction without injury to the Roof, Cheapness, Durability, Smoothness of Finish and Facility of Application.

☞ Any workman of ordinary skill can put it on rapidly. No expensive tools required. We are the sole manufacturers of this kind of Roofing, which we are encouraged to offer to the public, relying upon its intrinsic merits to insure its adoption. We are prepared to furnish, on short notice, Roofing, Ceiling or Siding, of iron or tin. Orders solicited.

J. M. CLYDE, D. D. S., }
OTTO ARNOLD, D. D. S., Demonstrator of Anatomy.
ARTHUR ROSE D. D. S., Instructor in Physiology.

This Institution being strictly a *DENTAL SCHOOL*, the Lectures in all the branches taught, Anatomy, Physiology, Pathology, Therapeutics and Materia Medica included, are arranged with a view to qualify the student to intelligently practice his profession.

The College being located in the center of one of our most populous cities, where there is no other similar institution, is at all times abundantly supplied with clinical patients, thus affording superior advantages for practice to the students. Clinics in Oral Surgery will be a special feature in the course of instruction.

TERMS OF GRADUATION.

A candidate must be twenty-one years of age. He must have attended two Courses of Lectures in a Dental or Medical College, the last of which must be in this Institution. A reputable dentist, in practice five years, may be examined for the Degree of D. D. S., after attending one full course of Lectures.

Young Ladies' Literary Institute.

SISTERS OF NOTRE DAME,

East Sixth Street, Cincinnati, Ohio.

This Establishment, erected in Cincinnati in 1840, has been incorporated by the State Legislature, and is under the superintendence of the Sisters of Notre Dame.

Belonging to the Establishment is a well furnished and judiciously selected Library adapted to the age and capacity of the pupils; a Museum, containing an assortment of specimens in Zoology, Conchology and Mineralogy; an Herbarium of Foreign and Native Plants; and a Philosophical and Chemical Apparatus for the use of the higher classes. There are also Globes, Maps, Charts of the Animal Kingdom, of Botany, Geology, Chemistry, and, in short, everything to make science familiar and attractive. The language of communication in the various studies is English, but the French and German being also spoken by many of the Teachers, the pupils will have every facility to perfect themselves in these.

Every two months, to excite a laudable emulation, the young lady who has most distinguished herself in her classes, receives an honorary medal as a reward. On completing the course of studies a Diploma is given to all those deserving that distinction. The Academic year consists of one session, commencing on the first Monday in September, and ending about the beginning of July. At the close of the Academic year, after a thorough examination, premiums are distributed.

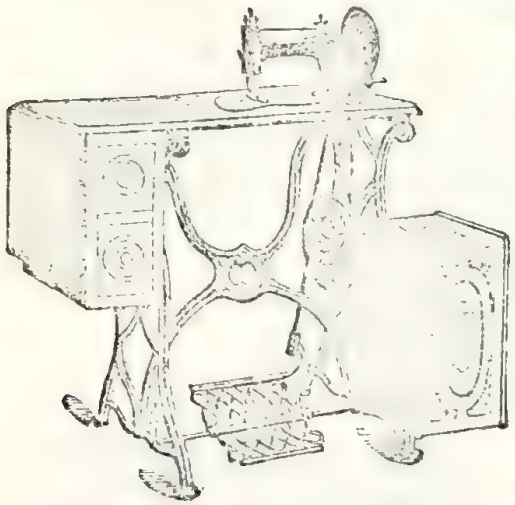

The Sisters beg leave to refer to the Most Rev. Archbishop and to those parents who have confided children to their care. For further information inquire of
